NEW FREUD PLAYHOUSE CONSTRUCT TO BE COMPLETED 2024

CORAL TREE WALK & SCULPTURE GARDEN

3 DESIGN ALTERNATIVES

CONCEPT 1

THE MAIN FOCUS HERE ARE THE GLASS FRONT EXTERIOR AND ENTRANCE AND THE GLASS SKYLIGHT. THE SKYLIGHT HAS OPENINGS ON THE SIDES FOR VENTILATION, THAT CAN BE CLOSED COMPLETELY FOR VERY COLD AND RAINY SEASONS. REVERBERATION IS MINIMIZED BY FLOOR TO CEILING CORK CLADDING AND VERY TALL GREEN VERTICAL GARDENS. BENCHES SURROUND THE OUTER EDGES, AND THERE IS A LOVELY SUCCULENT GARDEN IN THE MIDDLE. TICKET/SNACK BOOTH IS PLACED ON THE NORTH SIDE OF THE COURTYARD.

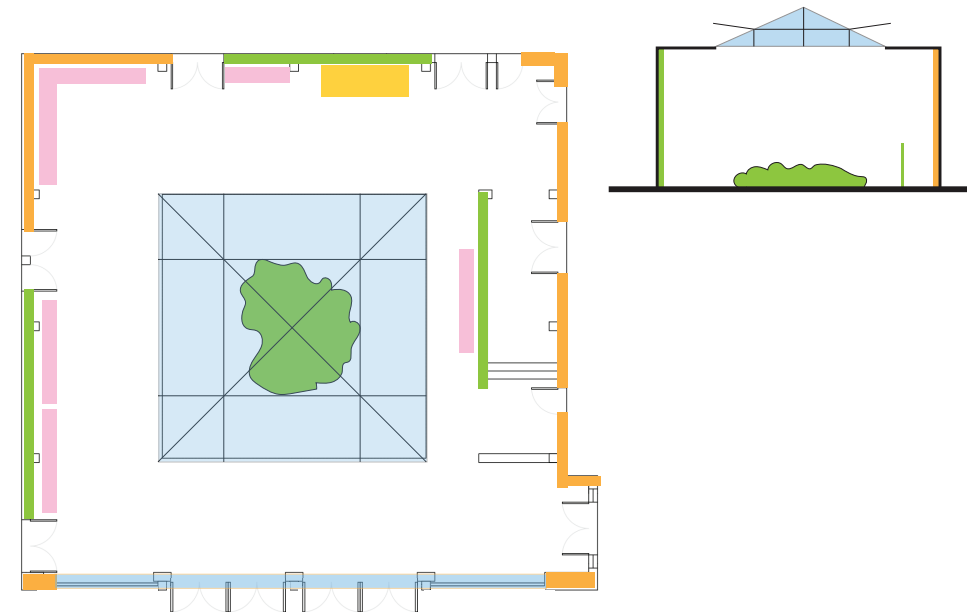

CONCEPT 2

THE UNIQUE HIGHLIGHT OF THIS CONCEPT IS THE RAISED CENTER STAGE. THE LOW STAGE HAS STEPS ON TWO SIDES, SURROUNDED BY A SMALL SUCCULENT GARDEN. THERE IS DRAINAGE THAT SURROUNDS THE STAGE, AS IT'S THE LOW PART OF THE COURTYARD. A HUGE FRONT FACING BALCONY FACES THE CORAL WALKWAY, AND CAN BE ACCESSED BY STAIRS, AND ALSO A GLASS ELEVATOR FACING THE SCULPTURE GARDEN. GREENERIES DRAPE OVER THE BALCONY FACING THE CENTER OF THE COURTYARD, AS IT HELP WITH REVERB ALONG WITH CORK CLADDING, WOOD PANELS AND VERTICAL GARDENS. SNACK STATION IS POSITION ON THE NORTHWEST.

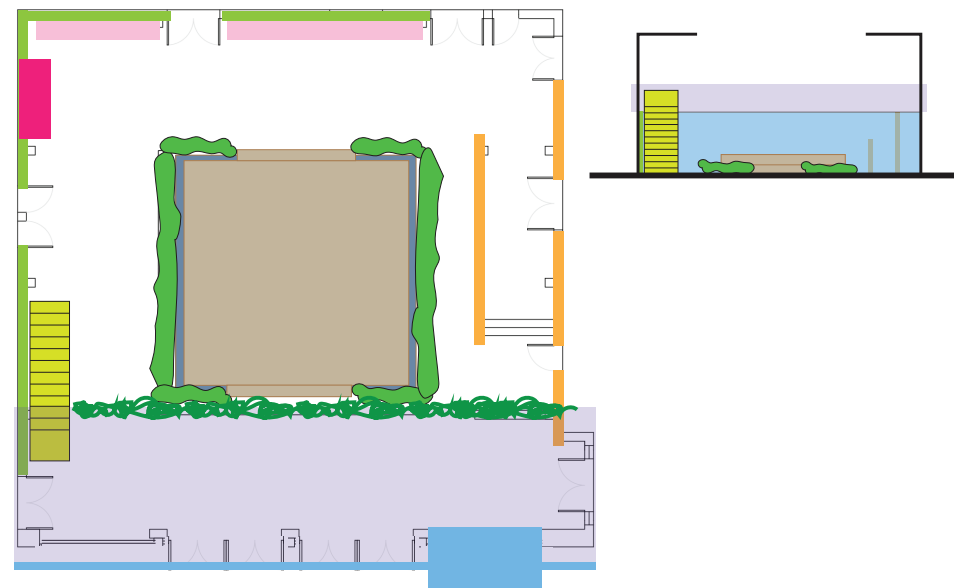

CONCEPT 3

THIS CONCEPT HAS A BALCONY THAT COMES OUT OF THE MAIN BUILDING, AND ALSO GOES AROUND THE ENTIRE UPPER FLOOR. THERE IS A LARGE TREE THAT REACHES OUT TO THE CENTER SKY CEILING, AND BENCHES ARE PLACED AROUND THE TREE, AND AGAINST THE WALLS. A MIX OF VERTICAL GARDENS, CORK CLADDING AND WOODEN PANELS ALSO HELP WITH SOUND REVERB, AND ALSO CREATE INSULIN TO KEEP THE SPACE WARM.
